Subject: Gun insurance

Dear Insurance Committee,

I am writing to express my strong opposition to insurance for firearm insurance. How can this possibly help the focus on stemming violence in society, or possibly be practically implemented. What happens if insurance is not provided, or becomes too expensive for lawful gun owners?

Our focus should be on the culture of violence in society promoted by hollywood and the gaming industry. These have the broadest and most direct impact on our youth!! Burden on lawful sportspeople like myself is the wrong focus.

Kind regards

Jeff Hanke
